

Chorus: I'm a main verb.

I need some help.

This job's too big to do all by myself.

A helping verb is what I need.

A helping verb to come and take the lead.

Verse 1: You could jump up. You just might dance.

And you should sing anytime life gives you the chance.

You are singing out this grammar song.

Helping verbs must help the main verb along.

(Chorus)

Verse 2: You have been laughing. You could be playing.

Helping verbs can help the mood or tense you are saying.

They take the lead to help verbs out.

Helping verbs are what this song is all about.

(Chorus)
