

Making Inferences Lyrics

by Melissa Corbett

Chorus: Making inferences is the difference
in reading what the author states
and knowing what the author means.
There is good news. You can find clues.
Supporting details help you find
a way to read between the lines.
Making inferences.....

Verse 1: We make inferences everyday.
When we work together, when we play.
If someone is crying we infer that she's sad.
If someone is laughing, we infer he feels glad.
Making inferences.....

(chorus)

Verse 2: When you're reading, inferences work the same way.
Infer what the author tends to mean but not say.
Use all the clues to make a logical guess.
Analyze details; put your brain to the test.
Making inferences.....

(chorus)
