

Prefix Match 1

Prefixes are word parts added at the beginning of root words (or base words) to change the meanings of the words.

Cut out the cards below. Place them face down on a table. Take turns with a partner flipping over two cards. If the prefix matches the meaning of the prefix, you have a match. Keep taking turns until all prefixes have been matched with their definitions. Have fun!

pre	multi	again	four
re	tri	before	two
anti	uni	after	seven
post	hepta	against	many
bi	octo	three	five
quad	penta	eight	one
dis	sub	all	ten
