

Similes and Metaphors Lyrics by Melissa Corbett

Chorus: Figurative language helps to describe,  
Giving readers a picture inside.  
Similes and metaphors are used to compare.  
They can highlight what two objects share.  
Yes, they compare.

Verse 1: Similes are used to join to separate views,  
To show the way two objects are the same,  
Using "as" or "like" to help you to describe.  
His beard was wild like a lion's mane.  
(Chorus)

Verse 2: Metaphors, you'll find, are a similar kind  
of figurative language that compares.  
They say one thing's another.  
I can now describe my brother.  
My brother is a hungry polar bear.  
(Chorus)
