

## Synonym Symphony

by Melissa Corbett

Chorus:           Synonyms always agree.  
                      They like to live in harmony.  
                      Synonyms mean "the same."  
                      They help the writer to explain.

Verse 1:           It's time to start, ignite, unfold, or begin.  
                      My mind can learn, understand, or open.  
                      I can run, bolt, book-it, or jog.  
                      I pet my puppy, mutt, canine, or dog.  
  (chorus)

Verse 2:           Watch out! It's hot, warm, boiling, or blazing!  
                      Your work is good, great, terrific, amazing!  
                      The boy is nice, friendly, helpful, or kind.  
                      I use my noggin, noodle, brain, or mind.  
  (chorus)

Verse 3:           Outside it's freezing, cold, icy, or cool.  
                      I wear my rings, frosting, bling-bling, or jewels.  
                      I pet my feline, kitten, furball, or cat.  
                      Put on my helmet, cap, sombrero, or hat.  
  (chorus)

Verse 4:           I am not tired, sleepy, exhausted, or done.  
                      I've had too much entertainment or fun.  
                      I'll call my homey, comrad, pal, or friend.  
                      This song is over, done, finished, THE END!  
  (chorus)
